

Making a payment to Aviva by **Electronic Fund Transfer (EFT)**

A quick, easy and secure way to send us money.

Paying by EFT means that money can be transferred directly from your account to ours, quickly, easily and securely.

What types of payment can I send by EFT?

You can use EFT to send us once-off lump sum payments (also called single premiums) or annual premiums. Monthly payments should be paid by **direct debit**.

Two important things you must do when sending us an EFT.

Although paying by EFT is easy, there are two important things you need to do to make sure your payment goes through smoothly.

1 Include your policy or scheme number and name

and

2 Transfer the payment to our correct account

Please see next page for full details.

You're safe in the hands of Aviva

1. Include the policy or scheme number and the policyholder or scheme name when transferring the payment to us.

- › We need this to make sure your money is applied to the correct policy, promptly.
- › We can only invest money when we receive all our requirements, and this includes knowing your policy or scheme number and name.
- › In some cases, if we aren't given this information, we may have to return your money to your bank account.
- › You can include the policy or scheme number and name in the 'Receiver or Beneficiary reference' field.

2. Transfer your payment to the correct Aviva bank account.

The Aviva account you should use will depend on the type of policy that you have.

If your policy is a(n):	Protection policy or a Friends First Savings, Investment or Retirement policy	Aviva Savings or Investment	Aviva Group Pension or Retirement policies
You should use this account	Account name: Aviva General Lodgement Account	Account name: Aviva Life & Pensions	Account name: Aviva Life & Pensions
